Planetary Alignment – January 2025

The night skies over Mumbai and Pune this January are set to dazzle with a breathtaking celestial spectacle. From rare planetary alignments to bright meteor showers, the universe is putting on a show you won't want to miss!

Venus and Saturn's Close Encounter

Venus and Saturn will inch closer in the southwest sky each evening, culminating in a stunning conjunction on **17th and 18th January**. This unique celestial event offers a rare chance to observe the graceful dance of these planets as they gradually part ways after their closest approach.

Four-Planet Alignment

Get ready for a **quadruple planetary alignment**! Venus, Saturn, Jupiter, and Mars will form a striking line along the ecliptic throughout January:

- **Venus & Saturn:** Low in the southwestern sky after sunset.
- **Jupiter:** Shining brilliantly above them.
- **Mars:** Glowing with its reddish hue in the eastern sky.

For telescope enthusiasts, Uranus and Neptune will also make their appearances, adding to the celestial bounty.

Mars at Opposition

Mars reaches **opposition** this month, making it brighter and more prominent as it sits opposite the sun, with Earth in between. This rare occurrence happens only every two years and provides the perfect opportunity to marvel at the Red Planet's beauty.

Why You Shouldn't Miss This

According to NASA, such planetary alignments are **extraordinarily rare** and provide a glimpse into the dynamic movements of our solar system. Pair this with **January's meteor showers**, and the cosmic beauty becomes a must-see event!
